October 31, 2017

Mr. Enmanuel D. Mejia
411 Ames Hill Drive
Tewksbury, MA 01876

Dear Mr. Mejia:

This letter confirms our *contingent* offer to you of an exempt, full-time position as Applications Programmer working with the Navy Maritime Maintenance Enterprise Solution (NMMES). NMMES is a large family of software applications that supports Navy shore-based maintenance. This position is part of a team of professionals providing software development, testing, deployment and sustainment support of these systems. Work will be performed in Kittery, Maine.

Your Imagine One labor category will be Applications Programmer (APPR) and the monthly salary will be \$5,416.67. Start date TBD when contingencies are met. Mr. Jeffrey Everett has been designated as your supervisor; however, the line of supervision may change as necessary to accommodate execution of this large Program.

If applicable, final acceptance of this offer is contingent upon the following:

- Your ability to successfully acquire a DoD background investigation, acquire a DoD Interim security clearance (*employment shall commence within 30 days of the granting of eligibility for a Personnel Security Clearance*) OR transfer a DoD security clearance to Imagine One. You will be contacted by our Security Officer within 24 hours after acceptance of this offer in order to complete any required security processes. You must comply with the dates set by our Security Officer. Failure to comply or to successfully receive a *final* security clearance may result in termination.

You are entitled to participate in Imagine One's full-time benefit program, tuition reimbursement plan, vacation accrual, and 401K plan¹. In compliance with Federal Law, Imagine One's employment offers are contingent upon verification of U.S. citizenship or of Legal Alien/Work Authorization status.

This offer letter supersedes any prior representations or agreements, either oral or written. Imagine One views the early months of employment as a time during which employer and employee attempt to establish a performance relationship which is mutually satisfactory and to determine whether the promises and potentials seen by each party during the application/interview process can be fulfilled. Hence, you may expect that your supervisor will be working closely with you, train you, counsel you and comment on your performance in order to assist you in fully meeting the requirements of the position. Employment at Imagine One is "at will". This means that either party is free to end the employment relationship at any time for any reason.

Enmanuel D. Mejia

¹ *Imagine One's benefit program is governed by the specific provisions described in the company policy manual. This document is controlling and is subject to change.*
